Tree Fruit IPM School
February 18-20, 2015
Eberhard Center
Grand Rapids, Michigan

MSU is an affirmative action/equal opportunity institution. MSU Extension programs are open to all without regard to race, color, national origin, gender religion, age, disability, political beliefs, sexual orientation, marital status or family status.
This two and a half day program will focus on how to develop and implement season-long horticultural and IPM strategies from establishment, dormancy, bloom through harvest, and post-harvest to support a healthy and productive orchard over the course of its lifetime.

Program content will include:

- Pruning and training systems for high-density apples and cherries
- Cover crops for orchard biofumigation and soil biology diversification
- Promoting orchard pollinators and bee safety during bloom
- Blossom and fruit thinning using precision orchard management
- Relating ooze to fire blight management decisions
- Strategies for preventing rodent damage
- Pheromone puffer dispensers for codling moth mating disruption
- Invasive species workshop: Identifying and managing Spotted Wing Drosophila and Brown Marmorated Stink Bug
- Preventing herbicide damage in high-density orchards
- Ambrosia beetles and other pests to watch out for
- 5th Tree Fruit IPM Pub Quiz: bring your IPM knowledge to compete for the title of QUIZ MASTERS!
